India Food and Agriculture: Powerhouse of the World

The anatomy of global food and agriculture has undergone a complete metamorphosis in recent decades. According to the World Fact Book of the CIA 2015, the global agricultural output was \$ 4,771 billion and 42 percent of this output comes from just six countries, five of them being developing ones. While China leads, India (\$ 367 billion) is second largest, US is third (\$ 279 billion), followed by Brazil (\$ 130 billion), Nigeria (\$ 122 billion) and Indonesia (\$ 121 billion). In fact, China and India alone account for about 30 percent of the total. The world's population will be about 10 billion by 2050. Food supplies need to increase by 60 percent of the current, as mentioned in 'World Agriculture Towards 2030/2050'.

India's domestic demand for food is expected to go up considerably with increasing population. Indian agriculture needs advanced farming systems, agri services, planting material, farm machinery, agro-processing equipment, crop care and soil health products, dairy, poultry and fishery technologies, infrastructure, value chain models, agri and food businesses and substantial participation in global food and agro trade. As India's institutions are providing global expertise and cooperation, it has become the gateway to almost two dozen Asian countries and whole African continent. Though 8% of world's food is grown here, the share in global trade remains dismal at 2%.

Major Flagship Programs of the Government of India

Modi Govt. launches ₹500 crore project to protect Indigenous Cows.

AgroWorld: The Gateway to Global Market and Agribusiness

In a bid to introduce contemporary agriculture –agri and allied sectors with their best practices, technologies, processing and marketing that can inevitably help countless farmers and platform owners, Indian Council of Food and Agriculture with the support of the Government of India and several States and in technical collaborations with a large number of industry associations and international bodies, is fully geared up to floor AgroWorld 2018 from October 25 to 27, 2018 at the sprawling campus of Indian Agriculture Research Institute, New Delhi. Additionally, this insightful global knowledge and trade event will encompass industry-oriented topics, opportunities for startups, international participation and much more.

Meanwhile, the agro food industry experts, agri-specialists and government officials from all across the world, will share their prized insights on available technologies, trade and business models and modern innovations. These distinguished individuals will be ready to interact with our entrepreneurs, farmers and scientists. Indian industry and businesses, institutions, Central Ministries and the State Governments will have the showcasing opportunities of their products and technologies, programs and services, potential and achievements before the national and global stake-holders to explore possibilities of investments, technical cooperation, trade, business, marketing and partnerships opportunities.

Along with its partners, ICFA is passionately promoting AgroWorld 2018 across India and the world that incorporates major sectors and key stakeholders in food, agriculture, horticulture, animal husbandry, aqua and allied sectors. ICFA invites you to avail this wonderful opportunity to take a proactive part as a zealous exhibitor or sponsor during the forthcoming exciting event – AgroWorld 2018, and showcase the products, technologies, programs and services to a colossal target audience in a single, pulsating platform for three consecutive days.

New Delhi- The Host City!

Delhi takes pride in being the capital of the country for many dynasties in the last 1000 years. It is in fact a city wrapped in legends and rich history, where time flows differently, and where every moment becomes a moment of history. A vibrant melting pot, it encapsulates two very different worlds, the 'old' and the 'new', each representing delectably different experiences. New Delhi, being the capital of India, has significant political, diplomatic and developmental display. Delhi is sprinkled with glittering gems like: captivating ancient monuments, magnificent museums, a vivacious performing-arts scene and some of the subcontinent's yummiest places to eat. Delhi blends within its folds the great cultural variety of India. Delhi is not just a name, it is a feeling. Every inch of land in Delhi has an important history buried under and every 500 meters has some significant cultural or historic work. Come experience it....

Objectives

Technology and Investments

To provide unique opportunity for interaction amongst key stakeholders namely government officials, experts, industry CEOs, agribusiness professionals, traders, farmers, entrepreneurs, developmental agencies and institutions to explore investments, technologies, marketing and collaborations among themselves.

Showcasing Opportunity

To provide platform to the states, institutions, officials, experts, industries and international bodies to showcase scope and opportunities, latest products, advanced technologies, food and agribusiness models, logistics, post-harvest management, global best practices and to connect with farmers and agri startups.

Networking and Partnerships

To facilitate global companies for exploring opportunities for business and investments, technical and marketing collaborations, exports and partnerships and signing of MoUs towards finding business partners, expanding business, increased value addition, trade and agribusinesses.

Policy Inputs and Knowledge sharing

To provide exposure, enrich knowledge and generate policy inputs through the technical seminars, international conferences, business dialogues and interactions among the Indian and Foreign visitors, exhibitors, experts, farmers, entrepreneurs, industries and business CEOs towards doubling farmers' income

Highlights of AgroWorld 2018

- Sprawling exhibition venue at IARI
- World class infrastructure
- 40 sectors with specialized Pavilions
- 12 Fruit Festivals and Commodity Festivals
- 10 International Conferences
- National and global participation
- Top Government and policy makers visits
- B2B Meetings and business facilitation
- 40 Global Business Dialogue Sessions
- Progressive farmers' workshops
- India Agribusiness and Global CEOs Awards 2018

Trade Visitors

AgroWorld 2018 invites target visitors through all kinds of channels according to the exhibitors' conditions. The officials, industry, institutions, producers, traders, importers, investors, dealers, farmers and other professional organizations.

Exhibitors

Governments and chambers of different countries through country pavilions, international enterprises, Indian food and agriculture industry, central ministries, technology institutions, agribusinesses and State Governments, export and trade companies and agri-food start-ups, agro and farm services etc.

Reap the Rewards of Exhibiting

Global Visibility • Great Branding. • Marketing • Business Opportunities. • Collaborations and Partnerships.

- ❖ **International Participation:** With the increase in demand, more and more international players are attracted to the Indian market that offers enormous opportunities.
- ❖ **Delegates:** Find engaging audience and key persons of Indian and global food and agriculture sectors to explore possibilities of business, investments and collaborations.
- ❖ **Meet the Right Buyers:** The Fair boasts to understand exhibitor's needs and deliver right buyer, collaborator and investor to serve the purpose of participation.
- ❖ **Educational Opportunities:** India offers great learning opportunity in agriculture. The national and global display of products, technologies and services can help you discover how to be more productive.
- ❖ **Networking Opportunities:** AgroWorld 2018 provides a great opportunity to network. Better innovations and models from other regions and the world can become valuable resources for referrals and best-practices.
- ❖ **Expand Your Business:** AgroWorld 2018 is a place where you can learn more about the current national and global business climate. Discovering innovative products and services for your business to stay competitive in today's dynamic business world.
- ❖ **Extensive Media Coverage:** With large number of print and digital media partners and social media initiatives, it offers great exposure and widespread publicity.

AgroWorld Pavilions

- Seeds & Biotech Pavilion
- Soil Health Pavilion
- Farm Machinery Pavilion
- Hightech-horti Pavilion
- Agrochemicals Pavilion
- Micro Irrigation Pavilion
- Bio-Products Pavilion
- Agro Processing Pavilion
- Dairy Pavilion
- Poultry Pavilion
- Food Pavilion
- Agri Pavilion
- Spices Pavilion
- Sugar Pavilion
- Rice Pavilion
- Edible Oil Pavilion
- Fruits Pavilion
- Organic Foods Pavilion
- Cooperatives & FPOs Pavilion

- Development Pavilion
- Bamboo & Coir Products Pavilion
- States Pavilion
- International Pavilion
- Agri Education Pavilion
- Credit & Insurance Pavilion
- SSI & Agro Industries Pavilion
- Agri Infrastructure Pavilion
- Digital Farming and ICT Pavilion
- Technology Pavilion
- Fisheries and Aqua Pavilion
- Agri Startups Pavilion
- Agri Services Pavilion
- Animal Feed & Health Pavilion
- Medicinal & Aromatic Pavilion

Scope of Exhibits

AGRI-INPUTS

Agrochemicals, fertilizer, seeds, PGRs, bio-products, bio-stimulants, credit, insurance etc.

FOOD & FOOD PROCESSING

Conventional foods, Instant foods, snacks, healthy foods, frozen foods, sea foods, canned foods, baby foods, RTE food, fruitjuices, wines etc..

ANIMAL HUSBANDRY & AQUATIC PRODUCTS

Breeds, feeds, meat products, poultry products, dairy products, fishery products, seafood, animal feed and health products etc..

AGRO PRODUCTS

Grains, cash crops, fruits & vegetables, seeds, edible oil, rice, pulses, spices, dried fruits & nuts, flowers etc..

AGRO-TECHNOLOGY & AGRO- MACHINERY

Farm machinery, micro irrigation agro processing, ICT, e-commerce, cloud computing, big data, IT solutions, agro technologies farmers services etc.

AGRI-INFRASTRUCTURE, VALUE CHAIN, MARKETING & TRADE

Warehousing, Cold Storages, Logistics, Energy, Financing and Insurance Solutions, Wholesalers, Retailers, E-Market, Import & Export

Golden Crops of India

India, bestowed with diverse agro-climatic conditions and technological innovation has totally revamped its agriculture system. From a food scarce and importing nation, India has achieved the status of food sufficient and exporting country. India is today a leading producer of numerous agricultural commodities like pulses, rice, wheat, spices and spice products and is the second largest producer of fruits and vegetables in the world. India has sizeable agricultural trade in international market, and agricultural exports constitute a fifth of the total exports of the country. Some of the crops with their outstanding features, multiple uses and growing market offers lot more possibilities towards sustainable agriculture.

Global Business Dialogue Sessions

Besides international conferences, there will be a number of Business Dialogue Sessions on important subjects, involving national and international experts, officials and business CEOs. The business dialogue sessions will be a two hours long panel discussions with select audience.

1. Business Dialogue on Tea
2. Business Dialogue on Cotton
3. Business Dialogue on Maize
4. Business Dialogue on Tomato
5. Business Dialogue on Soybean
6. Business Dialogue on Banana
7. Business Dialogue on Grapes
8. Business Dialogue on Rice
9. Business Dialogue on Pulses
10. Business Dialogue on Potato
11. Business Dialogue on Coffee
12. Business Dialogue on Sugar
13. Business Dialogue on Sericulture
14. Business Dialogue on Spices
15. Business Dialogue on Edible Oil
16. Business Dialogue on Millets and Bio-fortified Crops
17. Business Dialogue on Cooperatives in Agriculture
18. Business Dialogue on Bamboo and Rattan
19. Business Dialogue on Honey Bees
20. Business Dialogue on Bio-Inputs
21. Business Dialogue on Animal Feed and Health
22. Business Dialogue on Medicinal and Aromatic Plants
23. Business Dialogue on Green House and Hydroponics
24. Business Dialogue on Floriculture
25. Business Dialogue on Agri Start-ups
26. Business Dialogue on ICT for Agriculture
27. Business Dialogue on SME and Agro Industries
28. Business Dialogue on Farm Credit
29. Business Dialogue on Crops Insurance
30. Business Dialogue on Agri Marketing
31. Business Dialogue on Agri Exports
32. Business Dialogue on Organic Farming
33. Business Dialogue on Agri Extension
34. Business Dialogue on Agribusiness Education
35. Business Dialogue on Agri Infrastructure
36. Business Dialogue on Cold Chain and PHM
37. Business Dialogue on Food Safety and Standards
38. Business Dialogue on GAP and Certification
39. Business Dialogue on Farmer Producer Organisations
40. Business Dialogue on Agri Value Chain Development

World Agriculture Prize and Swaminathan Global Dialogue on Climate Change and Food Security

Agriculture has been the foremost engagement of human beings since their existence and will continue to be imperative given the fact that food is necessary for survival. The shift in lifestyle of humans from their nomadic way of life to the settled way of life has become possible due to development and adoption of early agriculture practices. In this journey of transformation from famine to food sufficiency, certain individuals and institutions played critical roles. Still there is a long way to go in making the planet free from hunger and malnutrition. Developing and underdeveloped nations in order to boost food production, need cooperation, collaboration and learning of global experiences. Youth are moving away from farming and educated class sees farming as last option. They need role models and inspirations.

India has come a long way from the pre-Green Revolution days of 'ship to mouth' to a situation now, where self-sufficiency has been achieved in almost all areas of agriculture production. Over the years, India has taken leadership position in the world agriculture and is now in a position to benefit the developing world with its experiences and diversity of learning. The institution of World Agriculture Prize and starting the series of Global Dialogue on Climate Change and Food Security will provide great avenues to India and the world to learn from experiences and success stories of developed nations and replicate them in Indian and developing world context to deal with the challenge of climate extremes and ensure sustainable global food security.

With this vision to recognize the visionaries, who have served the humanity through agriculture, ICEA has instituted World Agriculture Award. A high level international selection committee is constituted. This will be a single prize of \$100,000 and will be launched with a special session, named "Swaminathan Global Dialogue on Climate Change and Food Security" on Oct 25, 2018, as part of the AgroWorld 2018 in New Delhi. The special session on climate change and food security has been incepted with a thought to invite the laureates of food and agriculture world to deliberate on this burning issue to come out with a blue print for climate resilient agriculture in a sustainable manner to safeguard our future generations.

Commodity Business Shows

India is a very important producer of major commodities in the world, being the largest producer of spices, tea, sugar and 2nd largest in rice, wheat, coffee and a number of other agriculture produce. Looking at the business potential and trading opportunity with India for a number of commodities from rice to sugar to tea and spices, a number of Commodity Business Shows are being organized to give special focus on to each of the major tradable commodities, by organising special display pavilions, business dialogue sessions and buyer-seller meets etc.

Country Specific Fruit Festivals

Fruits are essential part of a nutritional diet. Different countries grow a variety of fruits, which are consumed locally and also traded globally, both in fresh and dried or preserved forms. India is a hub of growing a large number of fruits from mango to banana, grapes, oranges, apples, litchi, pomegranates, cashew, guava, strawberries, papaya etc. However, given the rising incomes in the country, India is importing a large quantity of fruits from all over the world and the demand is estimated to rise at the rate of 15% plus over the next decade or so. Looking into the high market potential and trade opportunity, ICFA is organizing country specific fruit festivals by putting up special fruit display pavilions, seminars, organizing buyer-seller meets, cultural programs, cooking competition, prizes etc.

International Trade and Cooperation

Towards accelerating world engagement with India in food and agriculture towards facilitating investments, trade and technical cooperation, including technology and knowledge sharing for achieving the vision of global food and nutrition security, ICFA has planned 10 bi lateral and regional cooperation meetings during the AgroWorld 2018. During these meetings, Joint Business Councils will be launched, involving key stake holders towards achieving the above objectives. ICFA has already launched India – Africa Joint Business Council. Board comprising of ideally 20 members from India and the country/region from among the businesses, policy making, think tanks, experts and officials with a chairman and two co-chairs shall be nominated to manage the affairs of the JBCs. Important stake holders from the listed countries / regions are being invited to register or write to us for joining the Cooperation Dialogues and to be co-opted on the relevant JBCs. Following Sessions and JBCs are planned to be launched during the AgroWorld 2018.

1. Indo-Africa Business Dialogue
2. Indo-ASEAN Business Dialogue
3. Indo-BRICS Business Dialogue
4. Indo-EU Business Dialogue
5. Indo-Gulf Business Dialogue
6. Indo-Latin America Business Dialogue
7. Indo-SAARC Business Dialogue
8. Indo-US Business Dialogue
9. Indo-Canada Business Dialogue
10. Indo-Australia Business Dialogue

Progressive Farmers Conventions

Agriculture is the largest employer in India engaging @ 50% of the population and is also a pre-dominant sector of India's economy with an annual output of \$ 390 billion. Farmers however need latest technologies, global best practices, market connect, value chain in farming and industry partnerships to take agriculture next level. ICFA envisions to provide farmers during AgroWorld 2018 the exposure to successful agribusiness models, fostering partnerships and connecting them with policies, Government schemes, technologies and markets.

Agri Startups Convention

Indian agriculture offers tremendous scope for Startups in providing missing links in agri food value chain. And in recent years, a large number of Startups have been launched in India, and they are looking for new ideas, inspirations and support to scale to newer heights. In this context, ICFA is hosting Agri Startups Conclave, as part of AgroWorld 2018 with the aim to bring all the startups in food and agri space on single platform for sharing of success stories and exploring business linkages, synergies, connects and partnership opportunities.

Global Agriculture Leadership Summit

Even after decreased contribution to GDP, agriculture still continues as a major livelihood provider around the globe, especially in the developing world; and hence responsible for economic growth and social transformation. Farmers however are facing plethora of problems in the developing countries and there is need for connecting them with the markets, technologies, trade and global best practices, and to transforming them from farmer to farm entrepreneurs. The 11th Global Agriculture Summit 2018 aims to provide the platform towards facilitating farmers connect with the markets, industry, institutions and the Governmental programs. Towards this end, ICFA is bringing together eminent personalities of Indian and global agriculture, food and agribusiness sectors on one platform. The experience will be combined with the presentation of 11th Global Leadership Awards and the release of Agriculture Year Book 2018.

Recognizing the Performance

Global CEO Awards 2018

These awards will be presented to the CEOs of the food and agribusiness companies operating on global scale and who have made the critical difference to the organization, achieving rapid global growth, launching new products and technologies, expanding into new markets, acquiring new products or companies, setting role model and contributing to social empowerment. CEOs fulfilling the following criteria may send a short write up by mail for consideration by the Jury.

1. Minimum 3 years of working as CEO and achieving growth of 5% plus during the last 3 years
2. Minimum Size Rs. 1000 crores or \$200 Million and employing 500 plus and operating in 7 plus countries
3. Having launched innovative products, technologies or business models with global acceptance
4. Contributing to the society through sustainability projects or significant CSR programs
5. Providing leadership role and inspirations to the businesses and professionals with knowledge sharing

India Agribusiness Awards 2018

These awards will be presented to the agribusiness companies operating in India, who are serving the farm or food sector with good quality products, technologies or services. Companies fulfilling the following criteria may send their short write up by mail for consideration by the Jury.

1. Minimum 3 years of operations and growth of 7% plus during the last 3 years
2. Minimum Size Rs. 100 crores and employing 100 plus and operating in 7 plus States
3. Having launched innovative products, technologies or business models

3. Spearheaded the launch of any new products, technologies, programs or business models with high acceptance
4. Having achieved minimum 10% growth in the business or sales portfolio handled or the products / programs launched
5. Providing leadership role and inspirations to the businesses and professionals with knowledge sharing

Mr. Narendra Modi, Hon'ble Prime Minister of India

"Our farmers are pride of our Nation. We have a vision of doubling the income of farmers by 2022. The production of pulses has increased from almost 17 million tonnes to 23 million tonnes in just one year. India has world class institutions of research and training in agriculture, dairy and live-stocks under every possible climatic condition. International partnerships can be catalysts for the development of agriculture."

Mr. Rajnath Singh
Hon'ble Minister of Home Affairs, India

"Agriculture need to be made more productive and rewarding by tapping the potential altogether of horticulture, dairying and food processing. Agriculture would be the sunrise sector in India by 2021 and will see unprecedented growth."

Prof. MS Swaminathan,
Pioneer of India's Green Revolution

"It is time for a nutrition revolution in India and it is important to work to achieve that to end malnutrition. This nutrition engima calls for a multi-sectoral approach involving areas including agriculture, health and rural development to ensure nutrition for people across the social spectrum"

Mrs. Sushma Swaraj
Hon'ble Minister of External Affairs, India

"India is the land of tremendous opportunities with its rapidly growing economy. Increased trade and investment in agriculture sector will empower farmers. The Government is aggressively promoting India's engagement with the rest of the World."

Mr. José Graziano da Silva
Director General - Food and
Agriculture Organization (FAO)

"India has expertise, knowledge and capacity that can help advance global efforts against hunger. The country has already established state-of-the-art science and technology institutes that attract researchers from across the Asia-Pacific region"

Mr. Radha Mohan Singh
Hon'ble Minister of Agriculture and
Farmers Welfare, India

"The government, for the benefit of farmers, has initiated several programs in the areas of infrastructure development, agriculture education, research, international cooperation, processing and technology transfer among others"

Mr. Jim Yong Kim
President - World bank

"India has a great opportunity to make strong and sustained inroads to reducing poverty and the World Bank will do all it could to best support India's ambitious development agenda"

Mr. Suresh Prabhu
Hon'ble Minister of Commerce and
Industry, India

"Commerce Ministry has put in place a new Agri Exports Policy that aims at substantially enhancing India's trade and cooperation with the world. The bottleneck of infrastructure is being addressed, taking the States on board"

Mr. Gilbert Houngbo
President, International Funds for
Agriculture Development, Rome

"India has kept an "impressive" target of doubling farmers' income by 2022 and the country will not be far in achieving that goal. IFAD is keen to partner with India for scaling up agri-programmes like electronic National Agriculture Market (e-NAM)."

Mrs. Harsimrat Badal Kaur
Hon'ble Minister of Food Processing
Industries, VIndia

"The government is looking at creating massive scale infrastructure for food processing and promoting Farmers Producers Organizations, agri logistics, processing facilities and professional management in food and agriculture space"

Mr. Shenggen Fan
Director General, IFPRI, Washington DC

"India has taken large strides to reduce hunger and undernutrition. The current political momentum in India to raise the profile of nutrition by ensuring strong leadership and commitment at all levels and across multiple sectors shows great promise"

About ICFA

Indian Council of Food and Agriculture is the apex body in India, working on business, policy and development agenda and serving as global platform for trade facilitation, partnerships, technology and agribusiness services. A proactive approach helps ICFA in discerning critical challenges emerging in Indian agriculture along with creating opportunities for development, value addition and international trade to accelerate growth in food and agriculture sector globally. With its 27 industry Working Groups and sector specific Business Councils, ICFA represents the interests of key stakeholders at the national level and through its international platforms and partnerships, ICFA facilitates India's global engagement in food and agriculture sector.

For enhanced sustainability, food safety and quality standards, ICFA has taken up the Agriculture Stewardship Program by launching Healthy Food Initiative program and Good Agriculture Practices (GAP) project. In a short period of two years, the Council has signed up MoUs with the University of California, University of Maryland, Michigan State University, Iowa State University, Western Australia University, German Agribusiness Alliance, Borlaug Institute for South Asia, African Asian Rural Development Organization and IFPRI etc. Through international partnerships, ICFA envisions to mobilise technologies and investments that will catalyse agribusiness and agri start-ups. The 20 Member ICFA Board has distinguished luminaries with the Pioneer of India's Green Revolution, Prof MS Swaminathan as its Patron.
